

Plan shewing the ascertained deaths from cholera in part of the parishes of St. James, Westminster and St. Anne, Soho during the summer and autumn of 1854

in

Cholera Inquiry Committee, Report on the cholera outbreak in the parish of St. James, Westminster, during the autumn of 1854 (25 July 1855), in two parts after page 96.

“This Map is the same as that which illustrates the Report of Messrs. Fraser, Ludlow and Hughes on the Cholera outbreak in this district. It is founded on the Map published in Mr. Cooper’s Report to the Commissioners of Sewers; but St. Anne’s Court and the neighbourhood have been added to it, and the fatal attacks which occurred in the district throughout the whole epidemic have been inserted in their respective localities where these could be accurately determined. Further explanations are given on the Map” (ii).

“The centre . . . falls at the junction of Cambridge Street with Broad Street, and it has been remarked by Mr. Whitehead, as may be shewn with compasses upon the map that a circle, having a radius of 210 yards, struck from the northwest angle of Cambridge Street includes almost the entire area, except St. Anne’s Court” (17).
